

Hydrogen for Climate Action

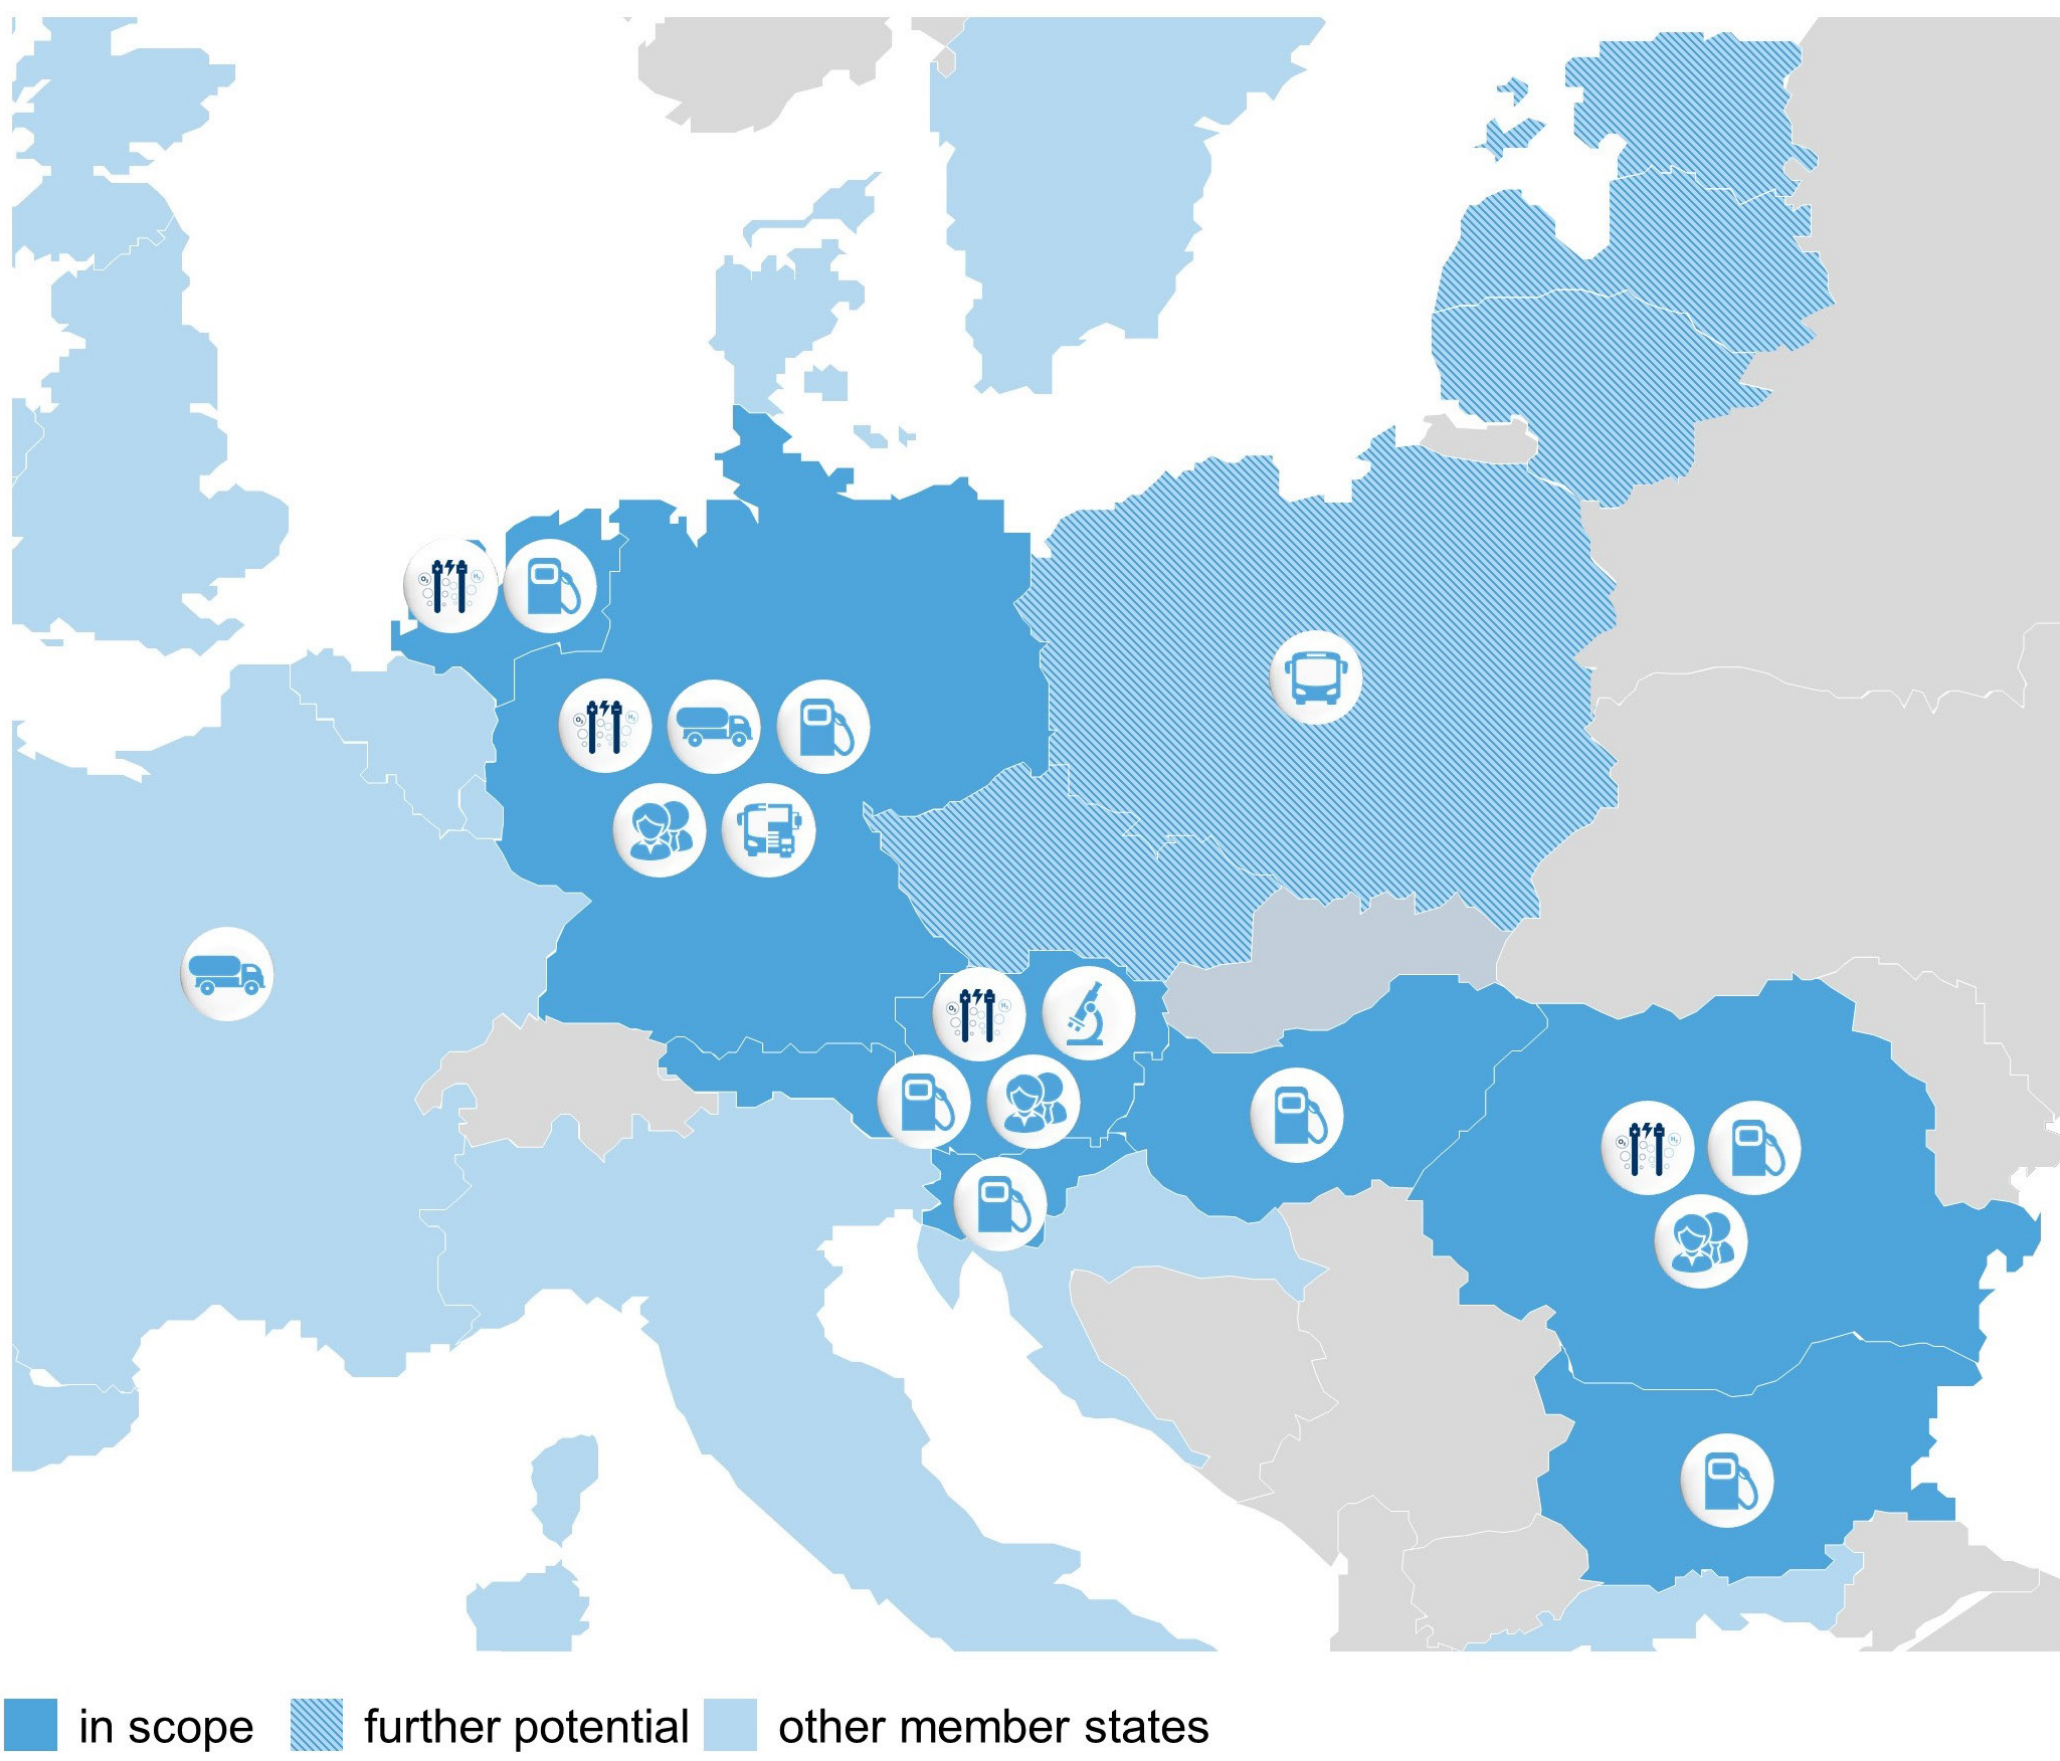

How to kick start the EU Hydrogen Industry
to achieve the EU climate goals?

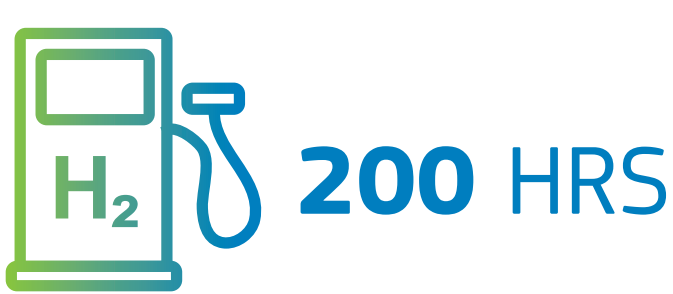

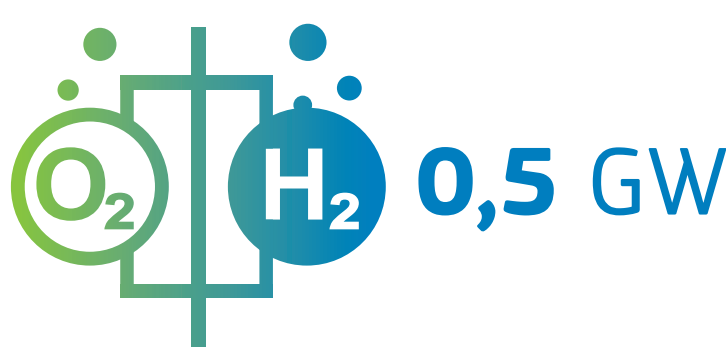

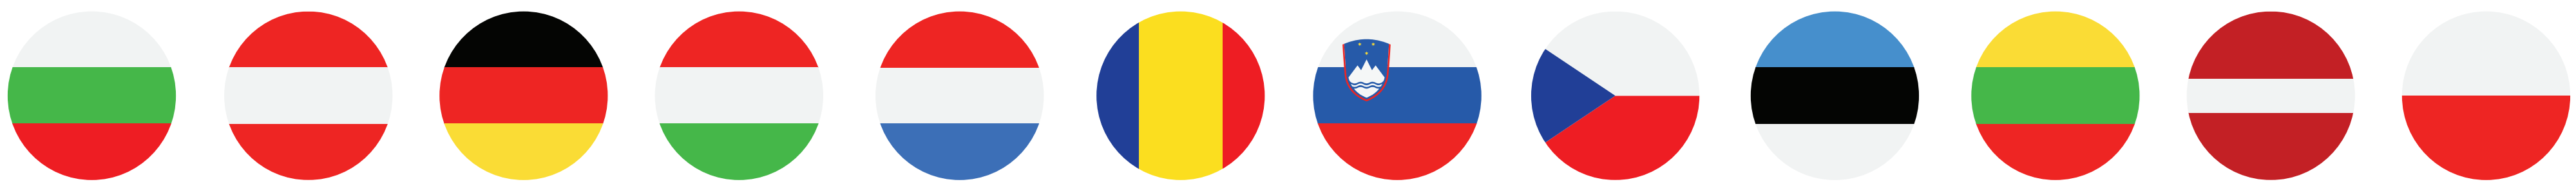

H2Go

PURPOSE: Demonstrate the potential of hydrogen powered road transport from Northwest to Southeast transport through a systemic integration of electrolyzer sites, storage facilities, logistics operations, OEMs, filling stations, buses and trucks haulers

- BENEFITS:** H2Go as joint effort of well-coordinated, large-scale investments along the entire values chain will:
- Build on the elements of the value chain already developed (decentralized approach)
 - Integrate and assess HRS technology / storage, logistics and routine operations of large-scale interoperational fleets as part of the hydrogen value chain for Europe's future
 - Provide valuable technological and operational insights for further systematic efforts to decarbonize Europe's mobility system.

COUNTRIES:

Internal Market,
Industry,
Entrepreneurship and
SMEs
